SUBJECT: NMSU's Student Health Center

Following discussions with ASNMSU President Matt Bose and a number of university leaders, we have decided NMSU will not house a privately operated health center on campus and will continue to operate our Student Health Center as a university entity.

To make sure we are best serving our students, we will soon issue a request for proposals on how best to design an integrated and comprehensive student health facility on campus. We anticipate being able to evaluate that proposal in the very near term.

I appreciate everyone's understanding and cooperation as we continue our work to serve our students and the state of New Mexico.
