6. **University-wide Information,**
  - a. Investigations Task Force (10 min) Provost Parker
    - Identified 3 categories of investigations
      - Incident like an accident, event based. We review the circumstances.
      - Allegation of a law or policy violation. Requires a review to determine events, policy violation.
      - Investigations into faculty-staff-student disputes. Have used investigation structure, which promotes adversity when we should be promoting reconciliation.
    - Recommendation: create a default procedure for these three types.
    - Develop training on due process
    - Thanks for Lisa Warren for her work on this.
  - b. Enterprise Risk Management (5 min) Katrina Doolittle
    - This office now reports to the Chancellor's Office through Vice Chancellor Johnston
  - c. Coronavirus Update (5 min) Katrina Doolittle & Lori McKee
    - Coronavirus is running through population because it is novel, and nobody has immunity to it. 80% of cases are mild. This virus hits older adults, especially those with compromised Immune systems.

- NMSU has a plan in place — we are currently in level 1, which emphasizes preparedness, prevention, protection.
    - Level 1 means we should be THINKING about what happens if conditions worsen.
    - Provost will discuss online teaching with Deans in the event this becomes necessary — Nobody has authorized online teaching at this time.
  - No need for masks. These are needed for health care workers and people with symptoms.
  - [New Mexico Department of Health](#) is holding town hall meetings all over state.
  - Memorial Medical Center will be our isolation location for Las Cruces; Emergency Medical Services are screening all high-risk calls.
  - [Aggie Health and Wellness Center](#) is ramping up control measures and is emphasizing communication about prevention. Their [website](#) is a good information source.
  - Human Resource Services is getting questions about working at home. If you feel ill, stay home and call a health care provider. Talk to your supervisor if you have questions about work schedules or university travel.
  - Employees should not be required to travel to affected areas — unit business offices will need to address how to cover these costs. The Provost is not involved with decisions to cancel international travel that was previously authorized.
  - Travel concerns should be worked out between individual and supervisor with disagreements being taken to next level supervisor.
    - Travel considerations should include possible quarantine time.
  - To move to next level in the preparedness plan — we will look at information from the [New Mexico Department of Health](#).
  - We are monitoring and the situation changes often.
- d. Aggie Memorial Service (5 min) Dean Goodman
- Seeking to make Aggie Memorial Day a more coordinated and ceremonial occasion. Ideas include things like tabling for notes to families, Aggie Reflections, Memory coin for families.
  - This year's observance is May 1, 5:30 at the Spiritual Center. Units should consider observing a memorial event in their areas.
- e. Legislative Update (5 min) Ricardo Rel
- Information is on UGA website — will be updated tomorrow after the Governor signs.
  - Big items
